Georgia ObamaCare Poll
500 Likely 2014 General Election
Georgia Voters
August 22-25, 2014

Methodology

The Foundation for Government Accountability commissioned an auto-dial telephone survey of 500 likely 2014 general election voters in the State of Georgia between Friday, August 22 and Monday, August 25. The poll was conducted by Advantage, Inc. A random sample of likely voters was polled, with "likely voter" status being assigned to those voters with high participation rates in the past several general mid-term elections. The poll has a margin of error of 4.38%.
