New Hampshire Survey

Foundation for Government Accountability commissioned a poll of 500 likely voters in the State of New Hampshire between Tuesday, July 8 and Thursday, July 10. Likely voters were defined as having participated in the 2012 primary and were randomly selected for participation from a database of registered voters. The poll was conducted by Advantage, Inc. with live calls from operators to both landlines and mobile phones. The poll has a margin of error of 4.38%.
